DRCC Submission to Town of Ajax

Action Ajax 2026 Strategic Plan Review

From: Derek Lee

Subject: Action Ajax 2026

Hello to All,

I would like to submit the following items in regards to Active Transportation.

1. Please continue to implement the recommendations of the Ajax Transportation Integration Master Plan;
2. Twin the Water Front Trail;
3. Add center lines to the MUPs as on the WFT. It helps to keep users more aware and respectful of others;
4. Add cross rides at vulnerable intersections and business entrances. The Region has added signalized cross rides on Bayly at Audley and Shoal Point. The Town should urge the Region for similar at Bayly/Salem and;
5. Leave the bike lanes on Lower Harwood. It will cost the Town's tax payers around \$1 million to remove them and build a single MUP. There are better uses for this money.

Thank you.

Derek Lee,

DRCC Ajax Community Ambassador
