Subject: D2021-24 Zone 3 Feeder main and Conlin Road Reconstruction -

Good morning Cory,

My name is Ron Lalonde and I am the Executive Director for Durham Region Cycling Coalition (DRCC).

I am reaching out today regarding the latest closure now in place on Conlin Road – Whitby/Oshawa - which I understand you are managing as the project supervisor.

D2021-24 Conlin Road Feeder main- Thickson Road North to Stevens Road North

Last year, we had a similar closure across this section of roadway which was managed by Nathaniel Andres. Through conversation with Nat and his team, cycle support detours signs were put in place. As a reference, I have enclosed a picture of the sign located on Conlin just east of the Anderson St. Whitby intersection. Further to this, I have also enclosed a second sign photo from 2022 regarding the Garrard Road Town of Whitby project closure which ran concurrently.

With spring in the air, the cycling community is once again out on our roadways. Noting Conlin has now been closed for a number of weeks – and seeing no cycle detours signs – can you advise if detour signs will be put in place for the current year across the entire closure?

Please advise at your convenience.

Thank you,

Ron Lalonde
Executive Director
Durham Region Cycling Coalition

Hi Ron

We will ensure the detour signage is in place as it was last year

Regards,

Cory Manion C.Tech
