Re: Hunt Street Extension

Dear Mr. Sears,

Having reviewed the proposed Hunt Street Extension Environmental Study and the Study Addendum we were pleased to see the inclusion of cycle tracks on each side of Hunt Street thus extending the existing cycle lanes on Hunt Street. We also note the extension of the cycle tracks across Westney Road South into O'Brien Court which will provide a much safer access to the GO station than currently exists at Fairall Street.

We would also like to take the opportunity to suggest that in the detailed design, consideration be given to providing cross rides (per OTM Book 18) at all road intersections, including Westney Road South which would require coordination with the Region of Durham.

Respectfully,

A handwritten signature in black ink, appearing to read "Derek Lee", with a stylized flourish at the end.

Derek Lee
