Advocating for Safe Cycling Throughout Durham Region

2026-07-01

1-Meter Campaign

This year we again collaborated with the Region of Durham to bring to the attention of vehicle drivers that they must, by law, provide at least 1-meter clearance when passing cyclists.

We were able to work with the Region who produced two campaign posters that are now displayed on buses, at bus stops, bike shops and other public spaces.

This year the campaign also received support from the Durham Region Police Services.

At DRCC we are extremely pleased to have been an integral participant in getting this important message across to a broad spectrum of the public.
